IN RESPONSE REFER
TO FOIA-77-302

Dear Mr. Bush:

This supplements my previous letter to you dated December 14, 1977, which extended for ten working days the response period in which IIRC must respond to your letter dated November 23, 1977. You requested, pursuant to the Freedom of Information Act, access to any and all correspondence regarding the Bagac Nuclear Power Project to be located at Mapot Point, Bataan Peninsula, Philippines. Your request was received by the Office of Administration on November 28, 1977.

In response to your request, the documents listed on the enclosed Appendix have been placed in a file for your review at the NBC's Office of International Programs located at 7735 Old Georgetown Road, Bethesda, Maryland. Please contact Mr. Joseph Lafleur, Deputy Director, Office of International Programs, 492-7131, to make arrangements to review the documents.

The Bagac Project's Preliminary Site Investigation Report originally contained four (4) volumes. However, volumes 2 and 4 were inadvertently destroyed some time ago and are no longer available for review.

Other documents subject to your request were originated by the Department of State and are being referred to that agency for appropriate disposition and direct response to you.
