Dr. Harold Denton
77.00. Way.
Cathedral, Md.

Dear Harold,

It has taken me 47 days to sit down and write you to say "Thank you" for helping us over the crisis at "Three Mile Island." We live 15 miles downwind (East). You deserve a medal of some kind. Maybe the next time things won't get so hectic. Hopefully, there will never be another scare. Please don't let them open TMI. We have become anti-Nuclear and will stay that way until it is really proved safe.

Why aren't the Utility Companies being fined for the failure to heed safety? Where is D.E.R.? Where is O.S.D.A.? Maybe you could answer these questions in our local Lancaster Newspapers.

Thanks again for sharing our crisis -
respectfully,

Robert S. Shank and
Myrtle J. Shank

P.S.
We didn't evacuate, but
our grandchildren did.
