NRC PUBLIC DOCUMENT ROOM

In the Matter of
DUKE POWER COMPANY
(Amendment to Materials License
SNM-1773 for Oconee Nuclear Station
Spent Fuel Transportation and Storage
at McGuire Nuclear Station)
Docket No. 70-2623

Dear Tony:

In the "NRC Staff Interrogatory Responses" of May 21, 1979, the Staff indicated that certain additional documents would be forwarded to you relative to the Staff's response to your Interrogatory 2.

Enclosed please find copies of:

1. Reports prepared by the NRC's Office of Inspection & Enforcement relevant to the measurements of fuel shipping casks affected by the NRC's Show Cause Order of April 6, 1979. Three reports are enclosed - they are dated May 9, 1979, May 10, 1979 and May 18, 1979.
2. A package of material containing preliminary information from Nuclear Assurance Corporation relative to the measurements made on NAC and Duke spent fuel shipping containers.
3. A set of drawings entitled "NFS-4 Spent Fuel Shipping Cask", drawing No. E10080 (four sheets).

These materials complete the NRC Staff's response to your discovery request.

Sincerely,

Richard K. Hoefling
