FOIA-79-286  
rec'd 7-30-79

Dear Sir,

I intend to write an article about nuclear power for the  
Harvard Political Review. Under the Freedom of Information Act, I request any reference materials which may  
be available. While I would appreciate any specific information you  
might have, I specifically would like to know about the work  
of the Commission. How does it work? What does it do?  
What sort of procedures are there to prevent a nuclear accident? What  
are your own estimates on nuclear energy, however, and what safety  
could be achieved by the nuclear system? What about  
used reactors? I would like to know more about all the  
issues involved. This is a nuclear power plant.

Thank you very much for any help.

Sincerely,
