June 14, 1979

Mr. James G. Keppler
Nuclear Regulatory Commission
Director of Regulatory Operations
Region III
799 Roosevelt Road
Glen Ellyn, Illinois 61037

Dear Mr. Keppler;

As has been our policy in the past, Zion Station will periodically be requesting the off-site support agencies to reaffirm their acceptance of their existing agreements with the Commonwealth Edison Company.

Enclosed is a copy of the agreement. If this arrangement is satisfactory, please sign and return the letter to my office.

As a part of this agreement, the station will conduct an annual meeting for members of your organization to visit the station, discuss the station emergency plan, and become familiarized with plant facilities.

In addition, Zion Station offers appropriate radiological training or retraining to members of your organization. If you wish to receive this training now or in the future contact Frank Rescek, Health Physicist, 746-2084 Ext. 237.

Respectfully,

N. E. Wandke
Superintendent
Zion Generating Station

AGREEMENT BETWEEN THE NUCLEAR REGULATORY COMMISSION AND THE
COMMONWEALTH EDISON COMPANY FOR RESPONSE TO AN
EMERGENCY ALERT AT THE ZION STATION

Commonwealth Edison owns and operates the Zion Nuclear Power Station. While it is highly unlikely, the possibility of an accident at the Station involving the release of radioactivity does exist and Commonwealth Edison Company is interested in ensuring the safety of the general public as well as on-site personnel.

The Nuclear Regulatory Commission agrees to respond to a request issued by the Station in the event of an off-site emergency. The Station will notify the Nuclear Regulatory Commission of the severity of the emergency and will make recommendations as to what action should be taken. Commonwealth Edison Company agrees to keep the Nuclear Regulatory Commission up to date on any changes or modifications to the existing emergency plan.

AGREED TO:
