

Incoming

April 17

Dear Mr. Yore,

Because of the rise of nuclear reactors in this country, I would like very much to know what is the procedure a power company goes thru to get a license? If you have this information, I would like very much to have a copy. Also what a company must go thru to re-open after an incident such as the Three Mile Island accident?

Thank you very much,

Sincerely,
Mr Tony Hedwin
