Docket Nos. 50-416/417

Mr. N. L. Stampley
Vice President - Production
Mississippi Power and Light Company
P. O. Box 1640
Jackson, Mississippi 39205

Gentlemen:

This letter is being sent to all licensees and applicants authorized to operate or construct a nuclear power reactor.

Under the provision of 10 CFR 73.55 and 10 CFR 73, Appendix B reactor licensees must develop and submit Security Training and Qualification Plans to NRC by August 18, 1979. To provide a single source of the information required for evaluating the adequacy of these plans, NRC is preparing a training and qualification review workbook. This workbook contains along with other information, the acceptance criteria used to assess the adequacy of the training and qualification plans. Enclosed is a copy of the interim reviewer workbook.
