SLNRC 79- 11 FILE: 0278.10  
SUBJ: IE Bulletin 79-02, Revision  
No. 1, Pipe Support Base  
Plate Designs Using Concrete  
Expansion Anchor Bolts

Mr. Boyce Grier  
Director, Region I  
Office of Inspection and Enforcement  
U.S. Nuclear Regulatory Commission  
631 Park Avenue  
King of Prussia, Pennsylvania 19406

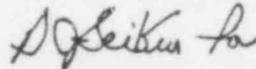

Docket Nos.: STN 50-482, STN 50-483, STN 50-484,  
STN 50-485, and STN 50-486

Dear Mr. Grier:

This letter and the Bechtel report, attached hereto, are forwarded on behalf of the SNUPPS Utilities as a generic response to the subject IE Bulletin. The items in the enclosed report are numbered to coincide with action items listed in the NRC Bulletin.

It should be noted that the SNUPPS response is the result of a review of design and installation practices and procedures for concrete expansion anchor bolts used for pipe support base plates in Seismic Category I structures. However, as a result of the concerns indicated in the subject Bulletin, areas other than pipe supports are being examined.

Very truly yours,

Nicholas A. Petrick
