Attention: Mr. Walter P. Haass

Gentlemen:

As required by your letter of November 22, 1978, we are submitting a notification of organizational changes in our Engineering Assurance Division.

The changes are depicted graphically on the attached chart (for reference see Section 1, Figure 3 of SWSQAP 1-74A) and in summary consist of:

- o Engineering Assurance Engineers to Project Support Activities
- o Special Assignments and Special Audits combined with Audit Planning and Project and Division Audits.
- o Procedure Distribution Control Center - new activity
- o Engineering Services to Procured Services
- o Education combined with Project Support Activities
- o Audit Planning - new activity
- o Section Head level of division supervision was excluded

The above changes will enhance division communication, maximize division performance and increase efficiency.

Implementation of the above actions will, in our judgement, introduce no degradation of the program.

We plan on incorporating these changes at the time of the next revision to SWSQAP 1-74A.

Please advise me if you have any questions regarding this action.

Very truly yours,

R. B. Kelly
R. B. Kelly
Manager,
