RE: Source Material License  
No. SUA-1329

Dear Sir:

Attached is an executed copy of Wold Nuclear's request to transfer License SUA-139, confirming Minerals Exploration's desire to receive and become the Licensee of the aforesaid License.

I have copies of the license application and clarifications, together with NRC's correspondence concerning them, and a copy of the License, with cover letter dated April 11, 1978. I would appreciate copies of any correspondence beyond this point.

For your reference, Wold has not initiated any work authorized under this license and Minerals has no plans for immediate development. If it is decided to proceed in the future with a project as authorized by this license, we will contact NRC. If you require further information, please contact me.

Sincerely,

*Philip C. Carlos*

Re: Source Material License  
No. SUA-1329

Dear Sir:

Please be advised that Wold Nuclear Company has sold and assigned its entire interest in certain mining claims and leases unto Minerals Exploration Company, a wholly owned subsidiary of Union Oil Company of California. This sale included those lands described as the "Authorized Place of Use" and all authorizations contained in License SUA-1329.

Whereas Minerals Exploration Company desires to receive and become the Licensee of the captioned License, Wold Nuclear requests the Commission to transfer this License unto Minerals.

On behalf of Minerals Exploration, the person responsible for License SUA-1329 will be:

Mr. Phil Carlos  
Minerals Exploration Co.  
1846 West Grant Rd.  
Suite 108  
Tucson, Arizona 85704

Telephone: (602) 884-8073

Via this letter, I am asking Minerals Exploration to sign a copy of this letter confirming their approval and forward an executed copy to the Commission.

For your reference, no construction or work authorized under this license has been started.

Please contact Mr. Carlos or the undersigned if you have any questions. Your immediate cooperation with this request would be sincerely appreciated.

Very truly yours,
