Areas Covered: Expiration of license, disposal of licensed material.

Results: The Region I Office has determined that this license should be retired.

8102180292

DETAILS

1. Persons Contacted

Kenneth W. Player

2. Expiration of License

The inspector telephone the licensee on September 11, 1980 and notified him that his License No. 29-16576-01 had expired on May 31, 1980. The licensee informed the inspector that he still possessed the byproduct material but was in the process of disposing of the material and wished to have his license terminated.

3. Disposal of Licensed Material

The licensee sent a copy of his letter, which accompanied shipment of the licensed source to Hewlett-Packard for disposal, dated October 9, 1980. The inspector telephone Ms. Howell of Hewlett-Packard on December 19, 1980 and verified that the licensed source had been received for disposal on November 6, 1980.

4. Evaluation by the Regional Office

Region I has evaluated the information supplied by the licensee and determined that a closeout survey is not necessary and that the license should be retired.

Attn: EC Detector Service

Dear Mr. Kolloff:

Please be in receipt of one H-P EC Detector No. 18713-A (5730AGC) for disposal. Since our license has expired, you advised me of the procedures necessary for shipping radioactive materials. Thank you for your assistance.

Sincerely-

Kenneth W. Player,
Laboratory Director
