

CITY OF MIDLAND, 202 ASHMAN STREET 48640

February 4, 1981

John W. Cooper, Ph.D., Chief
Regional Licensing Section
Material Licensing Branch
Division of Fuel Cycle & Material Safety
Nuclear Regulatory Commission
Region III
799 Roosevelt Road
Glen Ellyn, Illinois 60137

RE: Control No. 04203

Dear Mr. Cooper:

In reply to your letter of February 2, 1981, please consider the following statements and attachments as amendments to our license application:

1. The "place of use" statement should be amended to include the use of the device at temporary job sites around the City of Midland.
2. I am enclosing an amended copy of the "Handling Procedures" proposed for this jurisdiction. Rule #15 has been added to cover the matter of maintenance concern in your paragraph #2. Rule #6 also has a direct bearing on your concern.
3. Our Rule #14 has been amended to correspond directly to your concern in paragraph #3.

Please understand that it is my desire to comply with your requirements. Because time is becoming precious in this matter I would request that you call me at (517) 835-7711 ext. 164 (collect if necessary) if you find any further items not meeting your approval. I will give you any assurances that you require in writing, but the telephone suggestion is made in hopes of expediting the process.

Sincerely,

D. A. Wolcott
City Engineer
