NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

June 1, 1979

David S. Fleishaker, Esquire
Suite 602
1025 15th Street, N.W.
Washington, D.C. 20005

IN RESPONSE REFER
TO FOIA-79-146

Dear Mr. Fleishaker:

This is in response to your letter dated April 30, 1979 in which you requested, pursuant to the Freedom of Information Act, access to "all documents regarding the Stanislaus Nuclear Project P-564 A made available to the NRC staff by the Department of Justice (DOJ) and which (a) were obtained by the DOJ by way of a civil investigative demand (CID) relating to the Pacific Gas and Electric Company (PG&E) proposal to construct the Mendocino Project; (b) are internal PG&E memoranda; and (c) are dated January-March, 1973."

In an attempt to honor your request the NRC is making available 148 rolls of microfilm which contain copies of records in the files of PG&E. If NRC has the documents subject to your request they would be contained within the 148 rolls. No index to the individual records on the microfilm rolls were provided to the NRC and NRC has not compiled an index.

As agreed in a previous telephone conversation with Mr. Stephen Isaacs, of my staff, we are prepared to provide you access to these microfilm rolls at the NRC Public Document Room (PDR) located at 1717 H Street, N.W., Washington, DC. A microfilm reader is available at the PDR for your use. Since these microfilm rolls are also in current use by the NRC staff, arrangements will be made to provide you with access to a few rolls at a time. Paper copies of records, from the microfilm, can be reproduced at the NRC's Bethesda offices at ten cents (\$.10) per page. To make arrangements for access, please contact Mr. Stephen Isaacs, 492-8133.

Sincerely,

A handwritten signature in dark ink, appearing to read "J. M. Felton".

J. M. Felton, Director
Division of Rules and Records
Office of Administration
