Mr. Harold Denton, Director
Office of Nuclear Reactor Regulation
Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Denton

Operating License Review
Grand Gulf Nuclear Stations 1 and 2

I certainly appreciated the opportunity to meet with you and your staff with reference to the proposed schedule for review of operating license.

We have been advised that the House of Representatives provided funds in the appropriation bill last week for additional personnel. This development is most encouraging to us, and in view of the very good prospect that the Senate will concur, I am hopeful that we can meet with you and your staff at an early date with reference to the review of our pending application for operating license for our Grand Gulf Stations.

We will make ourselves available at your convenience.

Sincerely

DCL:sb
