Subject: Comment on Proposed Revision 1 to Regulatory Guide 5.7

Dear Sirs:

The last sentence in subject regulatory guide revision indicates the guide is applicable to facilities other than nuclear power reactors. It is not clear how this guide will fit in with proposed revisions to the regulation pertaining to research reactors and the associated regulatory guide. In particular, the proposed 10 CFR 73.47 (which makes specific mention of research reactor facilities) and proposed Regulatory Guide 5.XX do not appear to identify precisely the same requirements as proposed revision 1 to Regulatory Guide 5.7. I believe the statement in the introduction should indicate applicability of this regulatory guide with greater clarity.

Very truly yours,

  
R. J. Cashwell  
Manager, Nuclear Reactor Laboratories
