Transportation Branch
Division of Fuel Cycle & Material Safety
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. MacDonald:

- References: (1) Certificate of Compliance 9019
 (2) Letter, C. E. MacDonald to D. M. Dawson, 6/6/79

Please renew the subject certificate for the General Electric Company model BU-7 container used for shipping uranium oxide powder or pellets.

Pursuant to 10 CFR 170.31, a General Electric Company check for \$150 is enclosed for processing this request.

As the internal responsibility for licensing the BU-7 has been transferred from the GE facility in San Jose, California, to this office, it would be appreciated if the reference to General Electric Company in Section 3 of this certificate be changed to show the Wilmington address, if possible.

Thank you for your attention in this matter.

Very truly yours,

GENERAL ELECTRIC COMPANY
