In the Matter of Puget Sound Power & Light Company, et al.
(Skagit Nuclear Power Project, Units 1 and 2)
Docket Nos. 50-522 and 50-523

Gentlemen:

As suggested by the Board at the April 24 conference, Messrs. Black, Leed and Thomsen have agreed on a proposed order of presentation (copy enclosed) for the July 17 evidentiary session. Unless otherwise requested by the Board, the parties will make every effort to schedule their witnesses accordingly.

Reference is made to the presentation of Applicants' evidence on geology/seismology, currently scheduled to begin on Monday July 30. Staff counsel, Mr. Black, has advised that, due to the status of the review of this evidence by the Staff and USGS, he probably will not be in a position to cross-examine Applicants' witnesses on this subject during the July 17 session. In view of this, we are considering postponing Applicants' presentation until the subsequent evidentiary session at which the Staff/USGS evidence on geology/seismology will be presented.

We hope to be able to advise the Board concerning this possible change by July 11. If this change is made, it is possible (although

my estimates have often been too optimistic) that the July session can be concluded in two weeks, rather than the three weeks indicated on the order of presentation.

Very truly yours,

PERKINS, COIE, STONE,
OLSEN & WILLIAMS
