Dear Mr. Bryden:

Thank you for your letter of April 18, 1979, related to possible material substitution for a tank at the Three Mile Island nuclear power plant. We have requested that our cognizant field office investigate and report on the situation.

We appreciate your willingness to provide us with information. When the investigation is completed, we will send you a copy of the resultant report and of the planned follow-up action if any further action appears appropriate.

Sincerely,

Harold D. Thornburg, Director
