Dear Mr. Komanoff:

This is in reply to your July 5, 1979 letter requesting copies of the generic reports which are being developed as part of our TMI-2 related studies on operating reactors.

Enclosed is a copy of the B&W generic study (NUREG-0560). I will attempt to assure that a copy of the forthcoming reports on W, C-E, and GE reports are sent to you when these reports are completed, but, if all else fails, the reports will be available this Fall from the National Technical Information Service, Springfield, Virginia 22161.

Thank you for your interest.
