Dear Mr. Helfrich:

Enclosed please find an application from Westinghouse Electric Corporation for a license to export 12 radiation surveillance capsules containing Neptunium-237 to Taiwan for use in the Maanshan Units 1 and 2 nuclear power facilities.

Before taking action on this license application, we would appreciate your views, in accordance with established procedures and from the overall perspective of the Executive Branch, as to whether the issuance of the requested license would be inimical to the interests of the United States, including the common defense and security, and whether the proposed export meets the applicable criteria in the Atomic Energy Act as amended by the Nuclear Nonproliferation Act of 1978.

Sincerely,

A handwritten signature in black ink, appearing to read "Marvin R. Peterson".
