Docket No. 50-133

Mr. John C. Morrissey  
Vice President and General  
Counsel  
Pacific Gas and Electric Company  
77 Beale Street  
San Francisco, California 94106

Dear Mr. Morrissey:

We are in the process of reviewing our projected work load in order to more efficiently utilize our limited resources.

As you know, until seismic issues are closer to resolution, we have mutually agreed to defer review of other safety issues that are not pertinent to the Humboldt Bay plant while it is shutdown. We presently have no licensing activities which were initiated by you under active review. If there are items which you have requested which you believe should be under active review, however, please bring them to our attention within 30 days of receipt of this letter. You may contact your DOR project manager if there are questions.

Your assistance is appreciated.

Sincerely,

*Thomas A. Ippolito*
