

UNITED STATES NUCLEAR REGULATORY COMMISSIONDOCKET NO. 50-333POWER AUTHORITY OF THE STATE OF NEW YORKNOTICE OF ISSUANCE OF AMENDMENT TO FACILITY
OPERATING LICENSE

The U. S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 47 to Operating License No. DPR-59, issued to the Power Authority of the State of New York, which revised the license for operation of the James A. FitzPatrick Nuclear Power Plant (the facility) located in Oswego County, New York. The amendment will become effective twenty days after issuance, unless a hearing has been requested.

The amendment adds a license condition pertaining to the completion of facility modifications to improve the fire protection program.

The licensee's submittals comply with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR §51.5(d)(4) an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the licensee's submittals dated October 23, October 27, and December 21, 1978 and February 8, March 7, and May 7, 1979, (2) Amendment No. 47 to License No. DPR-59, and (3) the

Attention: Mr. Albert Schwencer, Chief
Operating Reactors Branch #1
Division of Operating Reactors

Gentlemen:

REQUEST FOR AMENDMENT
FACILITY OPERATING LICENSE DPR-70
UNIT NO. 1
SALEM NUCLEAR GENERATING STATION
DOCKET NO. 50-272

On May 9, 1979, we submitted a request to amend certain portions of the Environment Technical Specifications (our reference LCR 77-12B) which consolidated other requests made over a period of approximately 18 months. The request also introduced several new administrative changes and a request to increase the condenser delta t to 18.5°F from 16.5°F. Mr. William Ross informed us on August 14, 1979 by telephone that these newly requested changes would require submittal of a Class III fee because they had been made after the effective date of 10CFR 170.22 We, hereby, enclose a check for the amount of \$4,000.00.

Very truly yours,

Frank P. Librizzi
General Manager -
Electric Production
