Dear Sir,

I the Civil Defense Director of Okeechobee County and the people of Okeechobee County think and believe that it is asinine to think that intelligent people of this county could believe and want something like this to be done is out of their minds.

As for trial evacuation of the people from thier homes on a trial bases is absurd. To try and get the people of Okeechobee to leave their homes would start a major war. To tell them that this is an exercise and to leave their homes unguarded, some one is out of their minds. To think that for one minute that the Sheriff Office, the City Police or any of the Civil Defense Volunteers and Staff would go and tell a family this is an exercise, not us, we want to live.

In closing, we the people of Okeechobee County are strongly against this proposal.

Yours truly,

*Clyde E. Kauffman*  
Clyde E. Kauffman, Director
