MEMORANDUM FOR: Distribution

FROM: Jerry N. Wilson, Project Manager, Light Water
Reactors Branch No. 4, DPM

SUBJECT: BABCOCK & WILCOX TOPICAL REPORT **BAW-10120-A**

TITLE **Comparison of Core Physics Calculations of Measurements**

New: _____ Approved: X Supplemental Information to
Existing Report _____

This memorandum and the enclosed letter is distributed to inform you of the availability of the subject report and/or additional information which was submitted for our review under the Topical Report Review Program. The report and/or additional information is distributed as indicated below by numbers adjacent to appropriate organizations or names. ~~A Technical Assistance Request will be initiated shortly.~~ Additional copies may be obtained from the Records Service Branch (Room 016).

Jerry N. Wilson
Jerry N. Wilson, Project Manager
Light Water Reactors Branch No. 4
Division of Project Management

Mr. S.A. Varga, Chief
Light Water Reactors Branch #4
Division of Project Management
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Varga

Enclosed are sixty (60) copies of the NRC approved version of the proprietary Topical Report BAW-10120 PA, "Comparison of Core Physics Calculations With Measurements," and twenty-five (25) copies of the NRC approved non-proprietary version, BAW-10120 A.

Approval for withholding from public inspection the proprietary report BAW-10120 P was sought in my letter to you of July 14, 1978. Because no new proprietary material is included in the acceptance version of BAW-10120 PA, B&W does not intend to forward another affidavit defending the proprietary nature of this Topical Report; however, it is requested the NRC treat BAW-10120 PA as proprietary for the reasons given in the affidavit noted above.

Very truly yours

J.H. Taylor
Manager, Licensing
