Dear Mr. Anderson:

I am pleased to learn of your recent appointment as the liaison officer to the Nuclear Regulatory Commission. As you know, the NRC is committed to closer and more fruitful cooperation with the States, and I look forward to working with you to make this goal a reality.

I am enclosing a list of key NRC staff responsible for Nuclear Power Plant projects within the United States. These individuals should be able to help you with any questions related to a specific licensing application or operating facility. The NRC operator (301) 492-7000 has current telephone numbers.

Please feel free to contact these individuals with specific project questions and, as always, please do not hesitate to call me or Sue Weissberg, our State Liaison Officer at Headquarters, on other questions or problems you may have. The number is (301) 492-7794.

Sincerely,
