Mr. James G. Keppler
United States Nuclear Regulatory Commission
Region III
799 Roosevelt Road
Glen Ellyn, Illinois 60137

Dear Mr. Keppler:

This letter is in response to the Nuclear Regulatory Commission IE Bulletin No. 79-19. Radioactive sources used by Consolidation Coal Company (NRC License No. 13-16712-01) have not generated any radioactive waste since the authorization of our license on March 22, 1976. No radioactive waste is expected to be encountered, with the possible exception of contaminated leak test equipment (in which case your office would immediately be notified).

If this correspondence does not satisfy the IE Bulletin No. 70-19 requirements, please notify me.

Sincerely,

CONSOLIDATION COAL COMPANY
