*PR - Misc. Notice

Secretary of the Commission

Subject: Comments Pertaining to the Proposed Revision 2
to Regulatory Guide 5.44, Perimeter Intrusion
Alarm Systems

Gentlemen:

The following comments concerning the proposed Revision 2 to
Regulatory Guide 5.44 are provided for your consideration:

Section A should specifically address the applicability of this
document to Nuclear Powered Generating Stations.

The first paragraph on Page 3 should include acceptability of
remote video observation during testing.

The system descriptions labeled 1 through 6 on Pages 4 through
11 would be more appropriate if included in another document,
as they are not necessary to the Regulatory Guide.

The first paragraph at the top of Page 19 is not necessary to
the Regulatory Guide and could be omitted.

If you have any questions, please contact me.

Very truly yours,

Robert J. McWhorter
