Dear Sir:

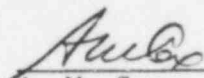

Responding to I E Bulletin No. 79-19:

Sherwin-Williams Chemicals Division  
Chicago Site  
The Sherwin-Williams Company  
11541 S. Champlain Avenue  
Chicago, Illinois 60628

We do not generate any low-level radioactive wastes.

We have nine Cesium 137 units to determine level and density. Seven are installed, the other two are in original packages awaiting installation.

Very truly yours,
