Re: IE Bulletin No. 79-19

Gentlemen:

Adrian College (License Nos. 21-07252-02 and SNM-574) does not generate low-level radioactive waste requiring transfer, packaging, and transport. Two disposals have been made in the last 10 years of sub millicurie quantities according to NRC regulations: one in the sanitary sewer system, the other by burial on campus.

Sincerely yours,

Levon L. Yoder
Radiation Protection Officer
Adrian College
Adrian, MI. 49221
