RE: NRC Byproduct Materials License No. 12-17171-01

Dear Mr. Keppler:

In response to your recent Bulletin No. 79-19, dated August 10, 1979, this facility does not generate low-level radioactive waste which would require the services of a waste burial firm or waste collection contractor. Radioactive waste materials at our facility are stored until they reach background levels and then disposed of as regular trash.

Therefore, we feel we are exempt from acting on items 1 through 9 in the NRC bulletin.

Sincerely,

MIDWEST NUCLEAR, INC.

Jean E. B. Bettridge
