Docket No. 50-320

JUL 24 1979

Mr. D. W. Dragnich
Pacific Northwest Laboratory
Richland, Washington 99352

Dear Mr. Dragnich:

We have evaluated your proposal to determine the extent of Cesium-137 in the Susquehanna River near Three Mile Island Nuclear Power Plant, dated July 1979 and identified as your Task No. 300A01385. We conclude that although your proposal is generally technically sound, staff estimates of the amount of Cesium released negate the need for such a study. Thank you for your interest.

Sincerely,

Original Signed by
L. G. Hulman
