Dear Mr. Keppler:

In response to your letter of August 10, 1979, regarding shipping of low level radioactive wastes, we provide this information.

The College of Wooster does not ship radioactive wastes. According to our license (#34-11812-01), Item 15, Waste Disposal, effluent waste is diluted and discharged into the public waste disposal system. Volatile wastes are incinerated. The maximum amount of waste disposed within a month is limited to one millicurie.

I trust this will satisfy your inquiry regarding shipping low level radioactive waste.

Sincerely,

Donald L. Wise
