Dear Mr. Reed:

Thank you for your recent suggestion to help improve conditions at Three Mile Island Nuclear Station Unit 2. Your suggestion was one of many which have been considered for possible application at the plant.

In addition, the efforts of a very large number of people in the Nuclear Regulatory Commission, the State of Pennsylvania, other Federal and State agencies and industry organizations have been applied at the plant. These efforts have been successful in assuring the continued cooling of the reactor core.

On behalf of the entire Nuclear Regulatory Commission staff, I want to express my appreciation for your interest and contribution.

Sincerely,

A handwritten signature in cursive script that reads "Harold R. Denton".
