Mr. Boyce H. Grier, Director
U. S. Nuclear Regulatory Commission
631 Park Avenue
King of Prussia, PA 19406

Dear Mr. Grier:

This letter is written in response to your communication of August 10th regarding the disposal of radioactive wastes.

Since our facility is a Zero Power Reactor operating at a maximum of one-tenth of a watt, there are no radioactive wastes produced.

Sincerely yours,

Bernard Koplik, Ph. D.
Reactor Administrator
