

OFFICE OF THE  
CHAIRMAN

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D.C. 20555

Comm  
CORR

September 5, 1979

Dr. Warren K. Sinclair, President  
National Council on Radiation Protection  
and Measurements  
7910 Woodmont Avenue - Suite 1016  
Washington, D.C. 20014

Dear Dr. Sinclair:

Thank you for your invitation of July 13, 1979 for the Nuclear Regulatory Commission to designate an individual to provide liaison to the Council. We welcome this opportunity to improve our relationship as a collaborating organization with the NCRP.

I am pleased to name Dr. Jacob Kastner to be the individual to act as liaison between the Nuclear Regulatory Commission and the Council. Dr. Kastner is currently a member of the NCRP and is, therefore, in an ideal position to serve as our official liaison representative. Dr. Kastner's address is:

Dr. Jacob Kastner  
Office of Nuclear Materials  
Safety and Safeguards (396-SS)  
Nuclear Regulatory Commission  
Washington, D.C. 20055

and his telephone number is (301) 427-4240.

We appreciate your extending us this opportunity to provide staff technical input into the review of draft reports of the Council. This opportunity should be helpful to both our organizations.

Sincerely,

Joseph M. Hendrie  
Chairman
