Dear Dr. Plesset: *Milt*

I have been informed of your willingness to serve an additional four year term as a member of the Advisory Committee on Reactor Safeguards. As you know the Committee serves an important role in providing independent advice to the Commission with respect to the licensing of nuclear facilities, the adequacy of proposed reactor safety standards, and the NRC reactor safety research program.

Accordingly, the Commission is pleased to offer you re-appointment to the ACRS for a four year term to begin October 1, 1979. Upon your acceptance of this re-appointment, a modification extending your letter of appointment will be sent you.

I recognize that service on the Committee involves some sacrifices on your part. We appreciate your willingness to give your time and energies to an effort which is so essential to the further progress of the Nation's nuclear regulatory program.

Sincerely,

Joe
