Mr. John F. Stolz, Chief
Light Water Reactors Project Branch 1
Division of Project Management
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Stolz:

Enclosed are:

- ~~1.~~ Forty (40) copies of a proprietary report entitled, "Supplemental Qualification Testing of Barton Lot 1 Pressure and Differential Pressure Transmitters."
- 2. Twenty (20) copies of the non proprietary version of this same report.

Also enclosed are:

- ~~1.~~ One (1) copy of Application for Withholding, AW-79-27 (Non-Proprietary)
- ~~2.~~ One (1) copy of Affidavit (Non-Proprietary).

The NRC letter from J. F. Stolz to T. M. Anderson (Westinghouse) dated May 15, 1979 entitled 'Review of report entitled "Qualification of Barton Pressure and Differential Pressure Transmitters"' presented the Staff evaluation of the Westinghouse qualification tests on the Barton Lot 1 transmitters as reported in NS-TMA-1950 dated September 29, 1978. The Staff evaluation letter asked for additional confirmatory qualification tests to demonstrate that the Lot 1 transmitters meet all of their design specification requirements. In response, Westinghouse proposed to the Staff a supplemental test program as described in NS-TMA-2103 dated June 21, 1979. The enclosed report contains the results of this supplemental test program.

This submittal contains proprietary information of Westinghouse Electric Corporation. In conformance with the requirements of 10CFR Section 2.790, as amended, of the Commission's regulations, we are enclosing with this submittal an application for withholding from public disclosure and an affidavit. The affidavit sets forth the basis on which the information may be withheld from public disclosure by the Commission.
