Office of Nuclear Reactor Regulation
Attention: Mr. T. A. Ippolito, Chief
Operating Reactors Branch No. 3
United States Nuclear Regulatory Commission
Washington, D. C. 20555

BRUNSWICK STEAM ELECTRIC PLANT, UNIT NOS. 1 AND 2
DOCKET NOS. 50-325 AND 50-324
LICENSE NOS. DPR-71 AND DPR-62
STATUS OF LICENSEE - INITIATED ISSUES

Dear Mr. Ippolito:

In response to your August 20, 1979 letter, we have assigned a priority (high, medium, low, or suspended) to licensing issues which were initiated by Carolina Power & Light Company (CP&L). We have also included items that were omitted on the NRC list. A brief status of some items is included below, if appropriate.

<u>Submittal Date</u>	<u>Subject</u>	<u>CP&L Priority</u>	<u>Comments</u>
6/30/76	Containment Deinerting	Suspended	NRC letter dated 8/27/79 suspended review of this submittal.
9/3/76	Single Loop Operation	Medium	Based on 8/22/79 NRC telephone call, CP&L must provide additional information.
12/27/76	Environmental Radia- tion Reports	Medium

<u>Submittal Date</u>	<u>Subject</u>	<u>CP&L Priority</u>	<u>Comments</u>
8/12/77	Containment Leak Rate Testing	Suspended (See comments)	CP&L plans to make a new submittal of a comprehensive leak rate testing program in October or November 1979. This will be based on a consultant's optimization study. CP&L would like to meet with NRC to discuss this program and necessary technical specification changes at appropriate time. CP&L's new submittal should be assigned a high priority at NRC.
1/4/78	In-Service Inspection/ Test (Pumps and Valves)	Medium	
8/14/78	Plant Reorganization	Suspended	Superceded by updated 8/14/79 submittal.
1/18/79	Reactor Vessel Water Level Instrumentation	High	CP&L needs these amendments to be issued prior to the 1980 refueling outages.
2/12/79	Administrative Technical Specification changes	Suspended	NRC issued the majority of these changes in Amendments 22 and 46.
2/20/79	Hydraulic Snubbers	Low (See comments)	This submittal will be supplemented by November 1979 because of reclassification of some snubbers. CP&L's new submittal should be assigned a medium priority at NRC.
4/27/79	EOC Recirculation Pump Trip	High	CP&L must submit answers to latest NRC questions (refer to August 17, 1979 NRC letter).
8/14/79	Corporate Organizational Changes	High	This letter reflects the latest corporate organizational changes and also includes all portions of CP&L's August 14, 1978 submittal which are still applicable.

<u>Submittal Date</u>	<u>Subject</u>	<u>CP&L Priority</u>	<u>Comments</u>
6/30/78	In-Service Inspec- tion (Pipe and Weld)	Medium	CP&L plans to revise this ISI program in October 1979 in response to NRC questions.

Please call us if you have any questions regarding this information.

Yours very truly,

E. E. Utley
