Nuclear Regulatory Commission  
Washington, D. C. 20013

Gentlemen:

On August 6th, 1979 a new organization called Americans Against Nuclear Power was formed. The goals of this new organization are to stop all nuclear power, stop construction of the Bailly One Plant in this area and to educate the public on alternative energy sources.

Due to the fact that there was only one notice in the LaPorte Herald Argus and no notice at all in the Michigan City New-Dispatch newspapers, we request an additional thirty (30) day extension in order to prepare and research the issue of short pilings which are to be used in the construction of the Bailly One Plant.

We would appreciate your responding to our request directly to our main office at the above address.

Respectfully submitted,

AMERICANS AGAINST NUCLEAR POWER
