Office of International Programs  
Washington, D. C. 20555

Subject: License Amendment

Dear Ms. Hemby:

Please grant us an amendment to our existing license XSNM-1045. The amount of material requested for this amendment will be 8 Kgs. of U-235 contained in 250 Kgs. of Uranium, enriched up to 3.4 w/o.

Reason for this amendment is that we are preparing to ship Region 12 reload fuel to Zorita Power Plant in Zorita, Spain and we find that the additional amount is required to fulfill the license requirement.

This shipment will be ready to leave our plant in Columbia, South Carolina in mid October 1979.

Thank you in advance for expediting this request. If you need any additional information regarding this application, please call.

Yours truly,

R. P. Keenan
