position so we building of the
Salem nuclear power plant in
Salem County, North Carolina.
I also ask you to take just one
look to the madness which threatens
our lives and property just because
the N.R.C. allows it to do. The
N.R.C. has no earthly right to continue
to lie to the American public. The
American public is paying your
salaries, why are you condoning us
to death? Why are you out to kill
my children? What about our
jobs? Well, the N.R.C. correct it;
it's wrong? Aren't you afraid of blood?

Hospitally,
Margaret S. Yeznik, Jr.
