UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

SEP 20 1979

Docket 70-2623

Mr. Glenn C. Blaisdell, County Manager
720 East Fourth Street
P.O. Box 31787
Charlotte, North Carolina 28231

Dear Mr. Blaisdell:

During our phone conversation of September 18, 1979, relative to your letter dated August 13, 1979, concerning emergency response capabilities, I referred you to a portion of the transcripts from the Duke Power proceedings. Although as I indicated, a full set of transcripts will be maintained at the Charlotte-Mecklenburg County Public Library, I am not sure of the timeliness of the availability of these documents. Therefore, I have enclosed for your use that portion of the record as an effort to expedite a response to your concerns.

Also, as I had indicated on the phone, Mr. James Hufham from the Environmental and Special Projects Section of the NRC Region II, Atlanta, Georgia, can be reached at 404-221-5599. Mr. Harold Collins from the Office of State Programs, Emergency Preparedness, NRC, Washington, D.C., can be reached at 301-492-7210. I believe both of these gentlemen may be of some assistance to you.

If I may be of any further assistance, do not hesitate to call; my number is 301-427-4205.
