IN RESPONSE REFER
TO FOIA-79-466

Dear Mr. Gysi:

This is in response to your letter dated October 27, 1979 in which you requested, pursuant to the Freedom of Information Act, radio communications information regarding the Three Mile Island accident during March-April, 1979.

The NRC did not use its own radio equipment during the Three Mile Island accident. Rather, it used equipment supplied by the Department of Agriculture (Forest Service) and the Department of Energy. We do not know the frequencies used or have any other information regarding this equipment. I suggest that you contact the above noted agencies.

Sincerely,

A handwritten signature in cursive script, appearing to read "J. M. Felton", is written over the typed name.
