:   
PHILADELPHIA ELECTRIC COMPANY : 50-353

AMENDMENT NO. 25

TO

LICENSE APPLICATION OF  
PHILADELPHIA ELECTRIC COMPANY

---

Applicant, Philadelphia Electric Company, hereby amends its Application in the above-entitled proceeding as follows:

1. By adding thereto, pursuant to Section 50.34(b) of the Commission's regulations, the Final Safety Analysis Report consisting of 16 volumes, which are filed herewith and incorporated herein by reference.

2. By adding thereto, pursuant to Appendix E of 10 CFR Part 50, a document entitled Limerick Generating Station Units 1 and 2 Emergency Plan consisting of two volumes which are filed herewith and incorporated herein by reference.

3. By adding thereto in accordance with Section 50.34(c) of the Commission's Regulations a document entitled Limerick Generating Station Units 1 and 2 Security Plan. This document, which contains the details of the physical security plans of a licensed facility, is being transmitted under separate cover with a request that it be withheld from public disclosure in accordance with Section 2.790 of the Commission's Regulations.

4. By adding thereto in accordance with Section 50.34(d) of the Commission's Regulations a document entitled Limerick Generating Station Units 1 and 2 Safeguards Contingency Plan. This document, which contains the details of the physical security plans of a licensed facility, is being transmitted under separate cover with a request that it be withheld from public disclosure in accordance with Section 2.790 of the Commission's Regulations.

5. By adding thereto a document entitled Limerick Generating Station Units 1 and 2 Fire Protection Evaluation Report, which is filed herewith and incorporated herein by reference.

6. By providing, pursuant to Section 50.33 of the Commission's Regulations, the following general information:

a) Applicant is a corporation organized and existing under the laws of the Commonwealth of

Pennsylvania having its principal place of business at 2301 Market Street, Philadelphia, Pennsylvania 19101. Applicant is not owned, controlled or dominated by an alien, a foreign corporation or a foreign government.

b) Applicant is a public utility engaged in supplying electric service in the City of Philadelphia and five surrounding counties in Southeastern Pennsylvania, gas in the five surrounding counties and steam heat service in the central Philadelphia business district.

c) The names and addresses of Applicant's directors and principal officers, all of whom are United States citizens, are set forth in Exhibit A which is attached hereto and incorporated herein by reference.

d) The class of license applied for is Class 103 pursuant to Section 50.22 of the Commission's regulations authorizing Applicant to construct, acquire, possess, use and operate facilities which will be used for the generation of electric energy for a license period of 40 years. Applicant also applies for such source, byproduct and special

nuclear material licenses as may be necessary or appropriate for the construction, acquisition, possession, use or operation of the facilities. Applicant intends to finance the cost of operating the facilities during the term of the license from revenues obtained in the ordinary course of its business. Applicant is financially qualified to engage in the proposed activities and has reasonable assurance of obtaining the funds necessary to operate the facility and maintain it in a safe shutdown condition as shown by its latest Annual Report which has been filed with the Commission previously, pursuant to Section 50.71(b) of the Commission's regulations.

e) The information relating to regulatory agencies and publications required by Section 50.33(i) of the Commission's regulations, is contained in Exhibit B which is attached hereto and incorporated herein by reference.

Applicant requests that a Class 103 Operating License be issued to it pursuant to Section 103 of the Atomic Energy Act of 1954, as amended, and the Commission's regulations in 10 CFR Part 50, for a period of 40 years, authorizing operation

of Limerick Generating Station Units 1 and 2 at power levels up to 3,293 megawatts (thermal) each. Applicant expects Limerick Unit 1 to be ready for fuel loading by October 1, 1984, and for commercial operation by April 1, 1985; and Limerick Unit 2 to be ready for fuel loading by April 1, 1987, and for commercial operation by October 1, 1987.

Communications with respect to this Application should be sent to:

Edward G. Bauer, Jr.  
Vice President and General Counsel  
Eugene J. Bradley  
Associate General Counsel  
Philadelphia Electric Company  
2301 Market Street  
Philadelphia, Pennsylvania 19101

and

Troy B. Conner, Jr., Esquire  
Conner & Moore  
1747 Pennsylvania Avenue, N.W.  
Washington, D. C. 20006

Respectfully submitted,

By           /s/ V. S. Boyer            
Senior Vice President
