Gentlemen:

This office has received a copy of your June 23, 1978 application for amendment to Facility License No. DPR-50 for Three Mile Island 1 which you filed with the Office of Nuclear Reactor Regulation. The application is for Technical Specification Change Request No. 84 regarding Cycle 4 Reload. An application fee of \$4,000 for a Class III amendment was forwarded with your letter of June 23.

We have determined from our preliminary review of your application that the requested action falls in Class IV (\$12,300) because it involves a complex issue. You should forward the additional \$8,300 promptly to this office. Fees are payable to the U.S. Nuclear Regulatory Commission by check, draft, or money order. If after the final evaluation of your application is completed it is determined that it was incorrectly classified, you will be refunded any overpayment or billed for any additional amount due.

If we can be of assistance to you, call 301/492-7225.

Sincerely,

Original Signed by
