Gentlemen:

This refers to your application dated March 9, 1978 which requested amendment to License SNM-1773 to allow storage of spent nuclear fuel from Oconee Nuclear Station at McGuire Nuclear Station. Through an oversight, the prescribed application fee was not collected for the subject request.

Enclosed is a copy of Part 170 of the Commission's regulations which was in effect at the time you filed your March 9, 1978 application. Fee Category 1C of §170.31 prescribed an application fee of \$2,440 for a license authorizing storage only of special nuclear material, including fuel elements. Therefore, please remit a fee of \$2,440 to the U.S. Nuclear Regulatory Commission and mail it to my attention.

We apologize for the delay in notifying you of the fee due. If you have any questions concerning this matter, please let us know.

Sincerely,

Allen S. Cabell
