

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

October 11, 1979

Docket No. 50-317

Mr. A. E. Lundvall, Jr.
Vice President-Supply
Baltimore Gas & Electric Company
Baltimore, Maryland 21203

Dear Mr. Lundvall:

By letter dated October 1, 1979, you identified a mistake in the DNB Axial Flux Offset Control Limit (Figure 3.2-4) of the Technical Specifications issued as part of Amendment No. 39. This amendment, dated June 14, 1979, authorized Cycle 4 operation of Calvert Cliffs Unit No. 1.

In issuing the amendment, Figure 3.2-4, was incorrectly produced from your submittal. Please correct this error by replacing the existing page 3/4 2-11 of the Technical Specifications with the enclosed page 3/4 2-11. We understand that your plant records confirm that the plant has been operated within the correct, more conservative, limits since the issuance of Amendment No. 39.

Sincerely,

A handwritten signature in cursive script that reads "Robert W. Reid".

Robert W. Reid, Chief
Operating Reactors Branch #4
Division of Operating Reactors
