Dear Mr. Edmundson:

We have reviewed the September 7, 1979 draft of the Nevada Regulations for Control of Radiation and would like to make a number of comments. We have divided these comments into two categories: (1) those areas related to maintaining compatibility and (2) areas where we strongly suggest additions or improvements be made. We ask your careful consideration of them.

If you have any questions or need clarification of, our comments, please give us a call.

Sincerely,

G. Wayne Kerr, Assistant Director  
for State Agreements Program  
Office of State Programs
