Re: In the Matter of the Application of)
Public Service Company of Oklahoma,)
Associated Electric Cooperative, Inc.) Docket Nos. STN 50-556
and) STN 50-557
Western Farmers Electric Cooperative)
(Black Fox Station, Units 1 and 2))

Gentlemen:

Consistent with the tenets of full disclosure as articulated by the Appeal Board in McGuire,* Applicants are submitting the enclosed letters for the information of the Licensing Board and the parties. The enclosures consist of the following:

1. Exhibit I - A letter dated July 10, 1979 from Mr. Eving of PSO to Messrs. Varga and Regan of the NRC Staff.

* Duke Power Company (William B. McGuire Nuclear Station, Units 1 and 2), ALAB-143, 6 AEC 632 (1973).

7909270029
1045 001

2. Exhibit II - A letter dated July 10, 1979 from Dr. West of PSO to Joseph Gallo, and the enclosure thereto, i.e., a letter dated July 6, 1979 from Mr. Ross of Black & Veatch to Dr. West.
3. Exhibit III - A letter dated June 7, 1979 from Dr. West of PSO to Joseph Gallo, and the enclosure thereto, i.e., a letter dated June 5, 1979 from Mr. Ross of Black & Veatch to Dr. West.

Exhibit I is a request for additional LWA-1 work, i.e., non-safety related work. As Mr. Ewing's letter indicates, the additional work, if approved, would permit the work force at the Black Fox Station site additional time before it becomes idle and demobilization is necessary.

Exhibits II and III explain PSO's actions with respect to resolving the phenomenon of containment vessel ringing in the design of the Black Fox Station. The Exhibits clearly explain the matter and I will not burden this letter with further explanation.

Sincerely,

Joseph Gallo
One of the Attorneys
for the Applicants
