Division of Fuel Cycle and Material Safety, NMSS
Washington, D. C. 20555

Attention: Charles E. MacDonald, Chief

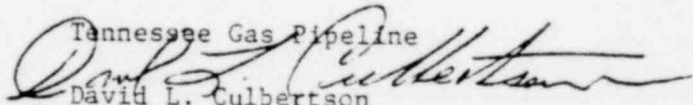

Gentlemen:

This is in response to your letter dated August 13, 1979 concerning the approval of our Quality Assurance (QA) program as meeting the program requirements of 10 CFR 71-51.

We have enclosed an up-to-date organizational arrangement chart as it applies to our QA program. There have been several changes in the organization since our original application was submitted on June 14, 1978. Our new President is now Mr. H. E. Long. We have also added two Associate Radiation Safety Officers to our program.

We hope that this information will be sufficient to satisfy the Commissions' need. If there are any questions concerning this matter, please feel free to contact us.

Sincerely,

Tennessee Gas Pipeline

David L. Culbertson
Radiation Safety Officer
